

Create a Meta Doc

Example Meta doc from a Shion video.

Template: Meta Template (Copy and move to the project folder)

Fill in all sections as appropriate. You may have to do some research.

- **Think of a good title!** This is very important. Aside from a specific format we follow, what kind of title you write is case-by-case. Avoid clickbaiting and misleading viewers.
- Source link/s, timestamp/s, channel name/s and @mention/s.
- Description - usually does not have to be more than one sentence, unless you're making it long for the funnies, requires a TL note, or some other valid reason.
- Hashtags
